Mr. Keith Impink
Westmoreland Electric, Inc.
193 Central Road
Tarrs, PA 15688

Dear Keith,

I am pleased to offer my endorsement on behalf of Baptist Homes Society to Westmoreland Electric, Inc. and its application for the Western Pennsylvania Builders and Contractors Excellence in Construction Award for work completed on Providence Point. Providence Point, a second campus of Baptist Homes Society, is our new continuing care retirement community located in the South Hills of Pittsburgh.

Having been thoroughly involved in the construction process, I can attest that work performed by Westmoreland Electric in our community was completed on time, within budget and met, if not exceeded, quality standards. Your personnel should be commended for their cooperative, professional manner. I was particularly impressed with the exemplary communication skills displayed throughout the project. Whether communicating with other contractors, the project architects, or other stakeholders, Westmoreland personnel were approachable, open, honest and quality-focused.

I feel confident in recommending Westmoreland Electric to any organization with upcoming construction needs. I would be happy to discuss my experience with your organization on your behalf.

Sincerely,

Todd F. Swartzel
President & CEO
