RE: 193 Central Rd

Dear Matt:

This letter will confirm my visit to your Providence Point job on October 2, 2008. I would like to thank you, Steve and John for your time and courtesies extended to me.

As a result of our discussions and site survey, I have no recommendations to offer at this time. I want to say that the safety controls implemented on this job were much better than I have seen on most, if not all other job sites I have visited.

We did briefly discuss prior losses for 2008. As of 9/6/08 Westmorland has experienced three minor injuries. Obviously there were no trend or severity issues noted. This is an excellent loss experience. You, management and the employees should be commended for this effort.

Again, I would like to thank you for the assistance and cooperation extended during the course of my visit. Ohio Casualty appreciates your business and is available to assist with your loss prevention efforts. I will contact you after the first of the year in order to schedule another job site visit. In the meantime, should you have any needs or concerns, please feel free to contact me at any time. I can be reached at 724-600-6759.

Sincerely,

John Calizzi, ALCM
